DETAILED ACTION

Status of the Application

Receipt of the Preliminary Amendment filed 10/23/03 and the Information Disclosure Statements (IDS) filed 10/23/03 and 12/07/04 is acknowledged.

Claims 1-20 are pending in this action. Claim 2 is objected to. Claims 4, 5, 7 and 20 are rejected. Claims 1, 3, 6 and 8-19 are allowable.

Claim Objections

Claim 2 is objected to because of the following informalities:

Claim 2, line 11 recites "selected from the group of". The phrase should appropriately be recited as 'selected from the group consisting of' to be in proper Markush format. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1615

Claims 4, 5 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 4, 5 and 7 are indefinite because they contain the term “e.g.” in the claim limitation. It is not clear whether the limitations following the term ‘e.g.’ are actually included in the claim or whether they are merely recited for exemplary purposes. It is suggested that the claim language ‘*selected from the group consisting of*’ be used in replace of the term ‘e.g.’ in claims 4 and 5 to overcome this rejection. For claim 7, the phrase ‘*such as*’ may be used in place of the term ‘e.g.’.

Appropriate correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 20 is rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a specific and substantial asserted utility or a well-established utility.

Claim 20 recites the “Use of an oral pharmaceutical dosage form for the manufacture of a medicament useful in the treatment of gastric acid related diseases”, but, since the claim does not set forth any steps involved in the method/process for using the oral dosage form, it is unclear as to what method/process Applicant is intending to encompass. A claim is indefinite where it

Art Unit: 1615

merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 20 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim 20 is also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a specific and substantial asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

Suggested language to overcome this rejection would be, for instance, a 'process for treating', which recites at least one process step in the claim.

Allowable Subject Matter

Claims 1, 3, 6 and 8-19 are allowed.
